OTHER INFORMATION - SUPPORTED PLATFORMS

--	--

<p>The Finance Premium Product requires Adobe Flash Player 10.1 or higher.</p> <p> Click here to learn more about our transition away from Flash </p> <p>The Finance modules, originally written in Flex/Flash technology, are being rebuilt because Flash is being retired by Adobe and major web browsers in the year 2020. If you're using Campus Finance, you're likely seeing a related pop-up warning when you access a module and this will continue until we complete the transition to a rebuilt set of tools.</p> <p>We plan to release changes module by module, with Accounts Payable being the initial release.</p> <p>Modules to follow Accounts Payable are listed below in release order; however, priorities and technical dependencies may cause reordering:</p> <ul style="list-style-type: none"> • General Ledger Processing • Cash Management/Accounts Receivable • Purchasing/Requisitions • General Ledger Setup • Budgeting <p>We will announce the release for each new module approximately 30 days in advance.</p>		
Java Version	<p>Campus .1809+</p>	<p>Standard Version 8 (Java 1.8_152+)</p> <p>Please avoid upgrading to Java 1.8_221+ due to the information described in the warning below.</p>
	<p>Campus .1805 and below</p>	<p>Standard Version 7 (Java 1.7)</p>
<div style="border: 1px solid #f0e68c; padding: 10px;"> <p>Oracle, who owns the version of Java we use in our products (i.e. Java Webstart is used in POS and Schedule Wizard), decided to transition to a paid licensing model from their formerly free model. For Campus users, this change began to take place in April 2019 when Java 8 version 211 became available.</p> <p>At this time, users that attempt to apply the Java 8 version 211 update will be presented with a warning message from Oracle that tells them they need to purchase a commercial version of Java to continue using it.</p> <p>Districts should NOT download and install Java updates beyond Java 8 version 202 for now. Infinite Campus is transitioning our application to utilize the OpenJDK version of Java (and Webstart). Once a fully integrated version is available, customers will be transitioned to that. In the interim, Java 8 v.202 is a fully stable and secure version and there is no immediate need or benefit to update a Java installation beyond that. We will keep customers updated should this change.</p> </div>		

Campus Student and Parent App

Campus Student and Parent Apps apps are designed to provide real-time access to student information such as grades, assignments, attendance, schedules, and announcements.

Device	Minimum OS
Apple iOS Devices (iPod Touch, iPhone, iPad)	iOS 6.0+
Android Devices (Phones and Tablets)	Android 4.0+

Accessing Campus on Mobile/Tablet Devices

With each release, Infinite Campus continues to work on and improve the user experience of accessing

Can I get assistance with running Campus on a platform that is not supported?

If you are running Campus on an unsupported platform, then we cannot guarantee providing any support for it.

How can I get my Infinite Campus to be supported on a new or unsupported platform?
