

Dear Fourth Grader,

I am delighted to be your teacher! We are going to have so much fun!  
You and I will be learning together in our classroom.

I am thrilled to have had this grade change. I graduated from the University of Maryland with both my B.S. and M.B.A. When my children were in school, I returned to college to earn my M.Ed. In 2009 my family relocated to Bucks County from Anne Arundel County, Maryland. I am a big fan of the University of Maryland Terrapins. What I love to do most is spend time with my family, crochet, and garden. I am married and have three children. Nicholas graduated from the University of Maryland and is living and working in Vermont. Ben also graduated from the University of Maryland. After graduating as a Fire Protection Engineer, he decided to enter the Montgomery County, Maryland Fire Academy and is currently working as a career fire fighter. He is also getting married, and I could not be more thrilled. My daughter, Kate, is going to be attending DelVal fulltime in the fall and studying Horticulture.

I hope you enjoy the remainder of your summer. I look forward to you sharing your summer memories with your new classmates and me when we return to school. Promise me that you will come to school with an open-mind, a positive attitude, and a willingness to try together.

Our first day of school is Tuesday, September 3, 2024. Please let me know if there is anything I can do prior to the start of school. You will find my contact information below.

Your New Teacher, Mrs. Jennifer Brown
